

EO-1 Land Cover Land Use Change ALI Imagery of Australian Fires (Feb. 2009)

February 10, 2009
False-Color Image, EO-1 ALI Burn Scar Product
75,861 acre Beechworth Fire, Victoria, Australia

Unburned vegetation is bright green, while burned areas are clearly visible as dark red. The bright orange areas are a sign of open flame in this type of image. The additional shots are ground images from the fire, showing the flames and the firefighters in action.
